INTRODUCTION TO NSS

In India, the idea of involving students in the task of national service dates back to the times of Mahatma Gandhi, the father of the nation. The post-independence era was marked by an urge for introducing social service for students, both as a measure of educational reform and as a means to improve the quality of educated manpower. **On September 24, 1969**, the then Union Education Minister Dr. V.K.R.V. Rao, launched the NSS programme in 37 universities covering all States. The cardinal principle of the programme is that it is organised by the students themselves and both students and teachers through their combined participation in social service, get a sense of involvement in the tasks of national development. Besides, the students, particularly, obtain work experience which might help them to find avenues of self-employment or employment in any organisation at the end of their university career.

The main objectives of National Service Scheme (NSS) are:

1. To understand the community in which they work.
2. To understand themselves in relation to their community
3. To identify the needs and problems of the community.
4. To develop capacity to meet emergencies and natural disasters.
5. To practise national integration and social harmony

Coverage:

Started initially in 37 universities involving 40,000 volunteers, the scheme has grown over the years and it is implemented today with an involvement of more than 3.8 million volunteers spread over in 396 Universities.

Motto:

The Motto of NSS "**Not Me But You**", reflects the essence of democratic living and upholds the need for self-less service.

NSS Logo:

The logo for the NSS has been based on the giant Rath Wheel of the world famous Konark Sun Temple (The Black Pagoda) situated in Orissa, India. The Red & Blue colors contained in the logo motivate the NSS Volunteers to be active & energetic for the nation-building social activities.

Financial Arrangements:

The scheme is now a central sector scheme to organize Regular Activities (RA) and special Camping Programmes (SCPs). An amount of Rs.250/-per volunteer per annum is released towards Regular Activities (RAs) and Rs.450/- per volunteer per Special Camping Programme (SCP) which is of 7-days duration to be organized in the adopted villages/urban slums. In addition, the Government of India provides 100% financial assistance to run NSS Regional Directorates, State NSS Cells and Empanelled Training Institute (ETI).
